Course: Project Sustainable Energy Management — credits: 5

Course code	TBVB24PSEM
Name	Project Sustainable Energy Management
Study year	2024-2025
ECTS credits	5
Language	English
Coordinator	E. Vos
Modes of delivery	Education
Assessments	Project Sustainable Energy Management - Assignment

Learning outcomes

- Students can advise an organization, based on applied research, on the strategy and its implications for operationalisation of the energy transition.
- Students can set up and conduct research in which they apply the knowledge and skills gained during the minor.
- Students can describe their research and advice in a comprehensive advisory report.

Content

In this final project students carry out a multidisciplinary research to advise an organization on how to react to and/ or initiate activities as a result of the ongoing energy transition. The students will learn how to do applied research that precedes their advice and how to formulate their advice. They will learn how to include aspects from different disciplines in their advice.

Included in programme(s)

Exchange Energy & Society (autumn and spring)
Minor Energy & Society

School(s)
