Course: The Architectural Detail — credits: 5

Course code	BVVH25ADDET
Name	The Architectural Detail
Study year	2025-2026
ECTS credits	5
Language	English
Coordinator	V. Diderich-Georgievska

Modes of delivery

Action learning
Assignment
Guest lecture
Individual supervision
Lecture
Peer feedback
Problem-based learning
Project-based learning
Simulation
Supervision

Assessments

Architectural Detail - Assignment

Learning outcomes

1. The student can analyze and design spatial compositions using fundamental design principles. 60%-Level 2-Design/ Systems Thinking
2. The student can apply 2D and 3D visualization techniques within the design process. 40% _ Level 2 _Communiceren/Collaborative Ability

Content

The creative design process in architecture is a constant interaction between the design of the whole and its parts. It is the relationship between concept (the idea) and the technique and the material (the detail). Analysis of the precedents contributes to a better understanding of the strong integration of technical engineering and architecture. Furthermore, the frame of reference of the student will be expanded.

Included in programme(s)

Built Environment
Minor Architectural Design
Built Environment Exchange Architectural Design (autumn)

School(s)

Institute of Future Environments
