<b>Study year</b>	2019-2020		
<b>ECTS credits</b>	3		
<b>Language</b>	Dutch, with parts in English		
<b>Coordinator</b>	H.W. Brink		

### Learning outcomes

Main learning outcome

The student defines the requirements that office accommodation must meet, taking into account the physical aspects that relate to accommodation.

The student:

- defines the physiological aspects that determine the internal environment
- recognises potential reasons for a poor internal environment and explains how the quality of the internal environment can be improved
- describes the function and effect of different parts of building-related installations, and predicts the impact of these installations on the internal climate
- describes the importance of individual control over the work environment and explains how individual influence can be improved
