Content

Strategic Focus Areas: Entrepreneurship & Global Mindset & Sustainability

Since the 80’ies and 90’ies of the previous century, stock markets have a growing impact on economic and business life. Investors and businesses pay increasing attention to stocks and bonds and related instruments, domestically as well as internationally. Also, management of (international) companies needs basic understanding of how financial markets work, e.g. for financing purposes. Lastly, “green” financing is emerging on international capital markets.
