Hanze

Programme

Qualification awarded
Bachelor of Science

Length of the programme
48 months

ECTS credits
240

Level of qualification
Bachelor

Mode
Full-time

Language
Dutch, with parts in English

School
School of Health Care Studies

Locations
Groningen

Nutrition and Dietetics

Profile of the programme

Nutrition and Dietetics is one of the degree programmes offered by Hanze University of Applied Sciences Groningen's School of Health Care alongside Speech and Language Therapy, Physiotherapy, Medical Imaging and Radiation Therapy, Dental Hygiene, Health Care Management and Physician Assistant. The degree programme offers a first-phase, i.e. Bachelor-level, full-time higher professional education, specifically a higher health care education. The Nutrition and Dietetics degree programme trains students to become nutrition-related health specialists.

A distinction is made between three different professional fields in which dieticians could end up working: health care, prevention and health promotion and the food industry. In the curriculum, this translates as a total of four majors, respectively Nutrition and Health Care, Nutrition and Vitality, Nutrition and Business and a broader programme (by means of a minor), leading to the Nutrition and Society major.

In 2013, the Dutch Association of Dieticians (NVD) established the professional profile of a dietician based on the seven CanMEDS areas. Analogously, a national professional profile which incorporates all the learning outcomes was elaborated.

Learning outcomes

In 2013, the Dutch Association of Dieticians (NVD) established the professional profile of a dietician based on the seven CanMEDS areas. Analogously, a national professional profile which incorporates all the learning outcomes was elaborated.

The core of professional practice is professional conduct. All other competence areas touch upon and are steered by this. The seven competence areas in the professional profile describe the entire breadth of the dietician's field of expertise.

The competence areas based on CanMEDS are as follows:
1. Professional conduct
2. Communication
3. Collaboration
4. Knowledge and science
5. Socially responsible conduct
6. Leadership
7. Professionalism

Programme

Nutrition and Dietetics	**credits**
Systematic approach level 1	15
▫ VDVP20MHB - Act methodically Business	*5*
▫ VDVP20MHV - Act methodically Vitality	*5*
▫ VDVP20MHZ - Act methodically Healthcare	*5*
Applied research level 1	15
▫ VDVP22KVOE - Acquire knowledge and conduct research Protein	*5*
▫ VDVP22KVOK - Acquire knowledge and conduct research Carbohydrates	*5*
▫ VDVP22KVOV - Acquire knowledge and conduct research Fats	*5*
Development professional behaviour level 1	10
▫ VDVP20OPG1 - Development professional behaviour 1	*5*
▫ VDVP20OPG2 - Development professional behaviour 2	*5*
