Inhoud

The second year of the master program is dedicated to deepening the development of your professional practice. In the third semester you can choose to fill in the Artistic Development course at another institute (see the TER), or you can follow the regular program at the PCC.

During the second year of the program the same PBR goals as described in semesters one and two apply. This third semester you will learn to give deeper meaning to your artistic work and to connect and interact with others. The course focuses on developing a wide range of professional knowledge and proficiency (technical skills) and applying these in different contexts that are relevant for your professional practice. At the same time, it focuses on the integrated development of your artistic vision, aims and the shaping of musical expression (the creative skills). Reflecting on your skills, attitude and working methods are central to the Artistic Development course in the second year of your studies.
