### Content

Minerva Art Academy maintains contact with a large number of institutions for art education in other European countries and worldwide. In previous years, many students have seen that a study period at one of these academies can be an inspiring and unforgettable experience. Bachelor students in their second year are given the opportunity to enrol for a study period abroad in their third year. In order to be considered for a study period abroad, students must meet a number of criteria. The Study Abroad Information Bulletin that appears in December every year provides information on the possibilities, study conditions, student grants and the registration procedure for a study period abroad.

### Included in programme(s)

Fine Art

### School(s)
