Content

In this project you can analyze a supermarket and some trending topics. You will visit Dutch supermarkets and conduct interviews with supermarket managers. In week 3 you will receive one trending topic which you can elaborate further.

You learn to calculate profit margins. You learn to make a break-even analysis and a Trinity analysis. Furthermore, you learn to assign costs through activity based costing. You learn to make multiple budgets, taking into account multiple scenarios on the basis of the assigned trending topic. These subjects are related to the course Management Accounting. You make account adjustment transactions, a balance sheet and an account of profit and loss. These subjects are related to the course Business Administration. All calculations and statements will be made in MS Excel.
