The student absorbs information, ideas and solutions from teachers and can use this with fellow students within the educational context.

Ability to cooperate:

Under supervision, the student works together with fellow students on the realization of an artistic product or process within the educational context.

Content

Theory domain: in this domain knowledge of the theoretical and historical background of (performing) art is acquired. In step 9, this domain is combined with the Theory domain components from the Bachelor of Dance in Education program and the student is introduced to the educational, didactic and methodical aspects of teaching in the Performing Arts.

Dance analysis only in step 9 (choice)

This domain part covers the theory and analysis of the ballet, jazz and PTMD technique.

Dance history

Dance history places dance in the broadest sense of the word in historical perspective.

Dance, Art & Culture, and Music History

Places the theory of dance, art & culture and music in (historical) perspective and thus lays the foundation for knowledge about developments in the contemporary cultural landscape.

Management Organization & Entrepreneurship (MOO)

MOO aims to teach theoretical knowledge and skills about entrepreneurship and project management.

Individual guidance Paper AD and Research Paper AD

The student learns to conduct research under the supervision of the AD Research Paper teacher.

MBK only in step 9 (optional)

Human and Movement Sciences comprises a basic knowledge of anatomy, physiology and pathology of the movement and tuning apparatus and subject-specific first aid skills.

MEDI only in step 9

MEDI comprises the theoretical and practical foundation of teaching and includes the independent development and implementation of lesson plans, curricula and curricula for teaching in the Performing Arts.

Music Theory

Music theory deals with the theoretical aspects of Music and includes the ability to read tones and intervals.

Musicalology

Musical studies places the musical in a historical perspective.

Work field and Work field Analysis

Work field and Analysis aim to provide insight into the work field, both at a practical (executive) and analytical (analysis of PA performances) level.
