

## Course: Graduation Project

credits: 30

**Course code** MILB17AFSTONDERZ  
**Name** Graduation Project  
**Study year** 2022-2023  
**ECTS credits** 30  
**Language** Dutch, with parts in English  
**Coordinator** M. Klaassens

**Modes of delivery** Graduation project  
**Assessments** TEST-01 - Assignment

### Learning outcomes

#### Research

1. The student draws up a methodically sound, coherent design for a research on an issue from the assignment or own organization.
2. The student writes a coherent theoretical framework that forms the basis of the practical research.
3. The student systematically carries out a practice-oriented research based on a substantiated research method.
4. The student describes the findings of the practice-oriented research in line with the analysed data.
5. The student formulates recommendations based on a critical consideration of the research results.

#### Presentation research

1. The student articulates in broad outlines the structure and results of the research in a clear manner.
2. The student demonstrates his business skills by motivating and defending choices made.
3. The student discusses the value of the research for the organization and the profession.

### Content

Graduation involves carrying out an integral graduation assignment. With this assignment, we aim to ensure that at the end of the training you are demonstrably able to set up a coherent research and conduct it thoroughly, based on research methodology.

### Included in programme(s)

B Health Care Management
