

## Course: Research Plan of Approach

credits: 15

**Course code** MILB21ONDERZPVA  
**Name** Research Plan of Approach  
**Study year** 2022-2023  
**ECTS credits** 15  
**Language** Dutch, with parts in English  
**Coordinator** D.R. Lager

**Modes of delivery** Assignment  
**Assessments** TEST-01 - Assignment

### Learning outcomes

1. The student draws up a systematically designed and substantiated plan of approach for a practice-oriented research.
2. The student bases the research design on the literature found, whereby the theory is related to the research question.
3. The student is able to set up research based on a practical problem, in which data collection is done by means of a survey.
4. The student is able to carry out and interpret a survey in a methodological way
5. The student reflects on his own professional development related to the content of the module.

### Content

In this module the emphasis is on information literacy, research skills and knowledge of research methods. We spend ample time on the research phases of applied research. This with the aim of developing an investigative attitude and laying a foundation for the coming modules and graduation in the final year.
