### Learning outcomes

#### Project Strategic Real Estate plan - IFVB22PRJSRE

The student performs a feasibility study (analysis) for housing to be realised, based on the housing strategy of an existing organisation. The related learning outcomes are:

*The student:*

1. Through both qualitative and quantitative research, analyses among users of the organisation, the performance of the existing housing in relation to the health of users, or the experience of hospitality, or the sustainability and circularity of the building.
2. Analyses the information collected by building systems regarding the existing facilities of the building in relation to the health of users, or the perception of hospitality, or the sustainability and circularity of the building.
3. Analyses the information gathered by the FMIS in relation to the health of users, the experience of hospitality, or the sustainability and circularity of the building.
4. Gives a convincing advice based on the performed analyses concerning the strategic housing of the organisation.
