Name	Hematology
Study year	2025-2026
ECTS credits	5
Language	English
Coordinator	O.Y. Wouters

Modes of delivery	Assignment Lecture Tutorial
Assessments	Hematology - Computer, organised by STAD examinations

Learning outcomes

Content

In this Hematology course we will discuss the formation of blood cells (hemopoiesis) and their roles in health and disease. The focus in Hematology, part I, will be on myeloid cells and leukemia. The focus is on myeloid cells, leukemia, erythrocytes, platelets, anemia, and coagulation disorders. Lectures on all topics will be provided as well as practice problems. In addition, students will prepare and give a presentation to the class on selected scientific articles on hematology. For this, students will form small groups, each group giving a presentation on one article.
