Learning outcomes

Scientific thinking

LU-WD 2.3.: The student can report in writing the practice-oriented scientific research carried out independently within the healthcare institution.

LU-WD 4.1.: The student presents his research findings to mentors, teachers, fellow students and/or other (care) professionals and to interested parties.

Content

In the third year of study, the student submits the Master's thesis for assessment. The student will defend the report orally.

Included in programme(s)
