Content

This course examines the business and its internal and external financial environment in an international context. Students analyse investment decisions, financing structures, and financial risks to support strategic and responsible business choices. The course contributes to a global mindset by addressing financial decision-making in international markets and institutional settings. It has a strong connection to sustainability and social impact through its focus on ethics, governance, and sustainable finance, aligning most strongly with SDG 8 (Decent Work and Economic Growth) and SDG 9 (Industry, Innovation and Infrastructure)
