Minor Human Rights Interdisciplinary

Profile of the programme

Hanze University offers these HRI modules to diverse groups of international and Dutch students from a broad range of study programs in order to facilitate cross-national and cross-disciplinary approaches throughout the course.

Learning outcomes

Upon successful completion, the student will have the knowledge and skills to:

- discuss, explore and question the concept of 'human rights';
- distinguish and consider several applications of the human rights concept in theory, law and practice;
- apply key elements of:
 - Positive Psychology;
 - Solution Focused Counselling; and
 - Intercultural Communication to interdisciplinary teamwork plus a variety of target groups;
- debate and write in English at an academic level.
