Inhoud

In the final phase of his/her study, the student is required to use literature and theory in order to substantiate the development of his/her ICT-product. During this course, students get acquainted with strategies to find appropriate literature and theories, how to assess the validity and usability of literature, and methods to use these theories to improve their research plan, as well as the phases in the development of their ICT-product.

Opgenomen in opleiding(en)

HBO-ICT, Major BITM

School(s)

Instituut voor Communicatie, Media & IT
