Leeruitkomsten

G1 (level 3) The CMDer is proficient in complex multimedial communication methods and can convey the added value of an innovation or product in a goal oriented, clarifying, inspiring and convincing manner

J2 (level 3) The CMDer has a personal network and connects others, stimulating information exchange, addressing their personal network when in need of specific information

H1 (level 3) The CMDer directs personal development: knows personal strengths and weaknesses, formulates learning goals, reflects on- and takes ownership of personal conduct and (re)directs themselves for the purposes of learning, profiling themselves towards others and adding to the assignment or organization

Inhoud

In this course students orient themselves on their future career domain and reflect on their current position. They assess their personal development critically and set learning goals for themselves. Both 'hard skills' and 'soft skills' will be focussed on. Expanding their professional network is an important aspect and is part of the end assignment. After this course students will have expanded their knowledge about their future career domain, have taken inventory of their current network and have expanded it. This support their their challenge of finding a graduation client. This all will be assessed in an presentation.
