

Vak: Advanced Practical Research

credits: 2

Vakcode	ITVB18APR	Werkvormen	Hoorcollege
Naam	Advanced Practical Research		Werkcollege
Studiejaar	2020-2021	Toetsen	Advanced Practical Research - Overige toetsing
ECTS credits	2		
Taal	Engels, Nederlands		
Coördinator	R.A. Rozier		

Leeruitkomsten

The student collects relevant information, research results, and theory for a given ICT-subject.
The student takes a critical stance toward the collected information.
The student uses research results of others to support a phase in the development of an ICT professional product.
The student writes a convincing report about the relevant theories based on collected literature.

Inhoud

In the final phase of his/her study, the student is required to use literature and theory in order to substantiate the development of his/her ICT-product. During this course, students get acquainted with strategies to find appropriate literature and theories, how to assess the validity and usability of literature, and methods to use these theories to improve their research plan, as well as the phases in the development of their ICT-product.
