ECTS credits 4
Taal Nederlands
Coördinator J.J.T. Kranendonk

Werkvormen Werkcollege
Toetsen Project People and Building - Opdracht

Leeruitkomsten

Main learning outcome

Makes a recommendation, both in writing and verbally, for the improvement of management processes relating to buildings and building-related services based on analyses carried out, and devises a medium-term plan for this improvement.

The student:

- analyses the current and desired quality of buildings and building-related services
- formulates alternative solutions for improving building management processes from a quality assurance perspective, and evaluates them on financial, legal and organisational criteria
- makes a convincing recommendation, both in writing and verbally, based on the analyses carried out
