

Vak: Learn

credits: 2

Vakcode	ARDM20DLN52
Naam	Learn
Studiejaar	2022-2023
ECTS credits	2
Taal	Nederlands
Coördinator	A.A.A. van Werd

Werkvormen	
Toetsen	Learn - Overige toetsing

Leeruitkomsten

4. Can critically reflect and discuss professional assumptions and formulate innovative questions.
6. Has knowledge of architectural (urban/landscape) history, architectural typology, analytical tools and building technology.
8. Shows the ability to investigate spatial and social issues relevant to a studio theme in order to define his/her own assignment
9. Takes a position in the professional debate on societal, political, cultural and philosophical issues.
10. Shows awareness of the responsibilities of an architect.
11. Shows the ability to inspire professionals as well as non-professionals by presenting his/her work in a convincing way (both verbally and in images)
12. Is self-reliant, directs his/her own learning process and makes deliberate choices in the internal and external curriculum.

Inhoud

Content

As an Academic institution we try to engage in urgent spatial and social issues in order to make positive impact, since our key values are: Act Conscious, Get Dirty and Add Value. These complex problems (societal, technological, environmental, cultural and other challenges) are defined in five research themes that are the basis of the studio's (design and research). The 6th is to be defined by the students. In 3 year's we address all these themes and start a new cycle. The defined themes are: Inclusivity, Climate Adaptability, Sustainability, The Long Now and Livability. Each studio will be dedicated to an actual theme and will focus on what architectural designers can add. For this studio the theme will be on 'affordability' (student's choice). The findings of this studio will be bundle to expand the body of knowledge. In order to gain a broader understanding of the issue at hand we will investigate in gaining knowledge together. The Theory Thursdays will provide a more theoretical background on the topic and the workshops more specific skills.

Working method

Work is done with the entire year group, both in sub-groups and individually. Supervision of the design exercises is carried out by a fixed team of lecturers per exercise, though the composition of this team will change during the studio. Furthermore, external guests will be invited for specific sub-areas (planning, landscape, construction, installations, knowledge of materials).

Conclusion/assessment

The assessment is based on a product and presentation. During the final presentations there will be time for presentation, sharing insights and reflection.

Duration/study load

15 weeks, 11 ECTS

Opgenomen in opleiding(en)

Master Opleiding Architectuur
