### Leeruitkomsten

By the end of this course, students are expected to:

#### *In the cognitive domain:*

- Have the knowledge and insights necessary to understand the dynamics of intercultural differences at the workplace. Have insights on how to deal with cultural differences in a constructive way (knowledge and insight, 40%)
- Develop a critical perspective, to identify and understand underlying issues in interests that are related to culture and be able to reflect critically on behaviours, feelings, thoughts and attitudes as a result of cultural backgrounds (analyze, 30%).

#### *In the affective domain:*

- Develop sensitivity towards other cultures by way of identifying your own set of intercultural values and reflect on it by translating these into your own development as a (international) HR professional, with accentuating the aspect of intercultural communication (valuing, 30%).

### Inhoud

The objective of this course is to introduce students to:

- the concept of national culture and its different dimensions
- the influence of cultural diversity on organisations; HR, leadership and cooperation
- the concept of the social, political & economic signature of a country.
