Taal	Engels
Coördinator	T.B. Dijkhuis
Werkvormen	Gastcollege Hoorcollege Opdracht
Toetsen	AI and your profession 2 - Overige toetsing

Leeruitkomsten

- The student creates their personalised learning goals and manages their individual learning process.
- The student develops an AI solution for a problem in their professional field, at a level matching their background.
- The student understands the concepts of trustworthy AI, explainable AI, ELSA and explains how these apply to their AI solution.

Inhoud

In this second quarter, you can largely determine your own learning goals. You work in a learning community on a larger practical assignment that fits your profession. Depending on the assignment and your wishes, you can delve into specific AI applications in your profession such as image recognition, autonomous systems (e.g. self-driving cars), judiciary, data-driven business models, AI in games, etc. In stand-ups and demos, you show your progress and learn from fellow students about their issues in other fields. Depending on the needs, we organize workshops with experts from our network. In the field of ethics, we delve deeper into concepts such as trustworthy AI, explainable AI, and ELSA aspects.
