Vak: Project Renewable Energy, Materials & Processing 1 — credits: 10

Vakcode	CTVH25PREMP1
Naam	Project Renewable Energy, Materials & Processing 1
Studiejaar	2025-2026
ECTS credits	10
Taal	Engels
Coördinator	J.M. Meerdink
Werkvormen	Hoorcollege Opdracht Projectonderwijs
Toetsen	Project Renew Energy 1 - Overige toetsing

Leeruitkomsten

Learning outcomes are obtained within the context of carrying out a project in the field of renewable energy, materials and processing.

- You can integrate information from different sources and based on this information prepare a Project Plan.
- You can function within a project team, showing initiatives and collaboration.
- You can give a Project Plan presentation that focusses on essential points in the project approach and gives rise to questions and input from the audience.
- At the midterm point of the project, you, as a team member, can put forward your ideas about the project progress and suggest changes to the project planning, if required.
- You can carry out the project in a structured way and with a problem solving mindset.
- In the Peer to Peer evaluation you are able to bring forward your views on the contribution of the different team members and yourself.

DAS competences

Competence	**Level (I-IV)**
Research	II
Experimenting	II
Development	II
Administration	I
Instructing	I
Advising	I
Leadership / Project Management*	I / II*
Autonomy	II

*: level II Project Management to be implemented in 26/27

Inhoud

The module aims to give the students the possibility to carry out a ½ year project in the field of renewable energy, materials and processing. The module is followed by Module 4.2.1: Project Renewable Energy, Materials & Processing part 2.

Opgenomen in opleiding(en)

LST Exchange Minor Renewable Energy, Materials & Processing
Minor Renewable Energy, Materials & Processing

School(s)

Instituut voor Life Science & Technology
