Leeruitkomsten

For this elective, level 3 students have to write 5 personal learning outcomes that adapt to their level, development needs and the CMGT competencies.

These learning outcomes must be clearly different from level 2 learning outcomes in the judgement of the lecturer of the course and require the approval of the course coordinator.

Inhoud

In this Narrative Design elective, individual students will work on a Narrative Design Canvas and a representation of their own work combining game mechanics and narrative into an interactive experience. To do this, students will be mentored along this process through workshop-style courses that focus on building specific connections and narrative considerations. Students will be challenged with examples of works with diverse storytelling, themes, interesting characters, plot conflicts, world-building, and other narrative design elements.

The entry requirement for this elective is that the student has passed level 2 of the elective.
